### **Wedding Themes**

"Theme Weddings Are One of The Hottest Trends In The Wedding Industry".

Bride Magazine, Sept 2001

2011 - ten years later, Theme Weddings keep on gaining popularity. Black and white as well as bold colors have also become very popular.

#### Why consider a theme wedding?

- If you know that you want a specific kind of wedding, but don't know where to start, or how to incorporate all the details, add a theme into your wedding preparations.
- Concentrating your wedding planning on a specific theme makes planning easier.
- It is your day. You want it to be special, uniquely yours, a day that expresses you and creates lifetime
  memories.
- You most probably want your guests to experience an unforgettable wedding.
- Picking a theme that reflects something you both like, a celebration of your heritage(s), things that represent the time of year you chose for your wedding and or a theme that is just lots of fun will leave all with a memorable wedding and the bride and groom with lots of mementos.
- Choosing a theme will inspire you to come up with creative ideas and a way to have your personal touch provide for a truly one-of-a-kind celebration.
- Incorporating your theme and focusing on it in as many aspects of the wedding as possible, such as the
  décor, attire, wedding accessories, food, cake, music etc. will make planning your wedding easy and
  enjoyable.
- Checking the Internet for supplies and wedding accessories in your chosen theme will provide you with creative ideas too.
- Having a theme wedding can save you money as well.

#### Note:

Choose your theme right after you have chosen your wedding date and location, before you start the actual planning. Choose your wedding colors at the same time. This way you can coordinate your wedding decorations, attire (if applicable for themes such as Western, International, historical etc), favors, flowers, cakes, menu and the other theme related items...

Following is a list of theme to browse. Having found a theme you can call your own, adopt it elaborate on it and use it as a launching pad for your own creativity.

Happy Planning
