What brides and grooms who ordered a pre-publication copy say about this Personalized Keepsakes Wedding Planning Guide and Organizer

What an amazing book! It had everything I needed to know and more. I used the checklists, general budget planner and budget planner for each vendor. The tips the articles and advice were stress savers. Actually, the whole book was so easy to work with that I enjoyed planning my wedding. I plan to keep it and all the papers and souvenirs I saved in the pocket folders. Definitely would recommend!

This wedding planner organizer has no frills and no cutesy pictures but lots of substance. I really like the lay-out and the way each chapter is organized. I love the 3 ring binder, and that the chapters are not numbered. We can print any page or chapter and place it anywhere in the binder. We can add pages, pockets or inserts to fit our needs. I also like the binder with its window cover. Mine came personalized with our names and wedding date. But most importantly, it helped me plan a real dream wedding. I recommend it to every couple. It would be great if you added resources and links to vendors.

I am a wedding planner by profession. I recommend this planner organizer to all my wedding clients. I guess I do so because I am selfish with my time. When brides and grooms fill in the worksheets, they give me all the information I need without me having to conduct lengthy interviews with them. Thank you for your thoughtful product,

Bridget

Right after we got engaged, I bought my fiancé every wedding planning book and organizer I could find. But only after I bought her the planner organizer published by Gan Publishing, did we have all our ducks in a row. We found it to be easy to follow and very complete, it covers everything. This book had all the information we had accumulated from our other planning books and a lot more. In fact it had things we would have never thought about. The sleeves and closable folders are great! But I think and my fiancé agrees that the specific questions for each vendor are super. I am sure that we would not have thought about asking many of them. Having all of our wedding planning information and paperwork in a personalized binder makes it a special keepsake to share with our future kids. My fiancé and I highly recommend it to all newly engaged couples.

The Keepsake Wedding Planner, Organizer, has really helped us plan our wedding. When we went to interview potential vendors, we took the appropriate pages out of our 3 ring binder and had every question and concern right in front of us. So instead of being stressed, we were relaxed. We knew that we will not forget to ask any important question, and be able to compare vendors before hiring the one that we liked best. We also had confidence because were able to double check, fully understand and totally agree with any contract before signing it, all we needed was to complete the specific contract checklist. Not only that, we were confident that should a problem arise, every brochure, business card, conversation, receipt and contract were in a special envelope, right in our wedding planning organizer. Thank you for a great wedding planner. We are going to give one to our engaged friends.

I have never been married and when I got engaged, I had no clue were to start. This wedding planner has a lot of great details and it lays the planning out for you. You could not go wrong. It has a section for everything a guest list, tells you how to narrow down before you make a decision and has lots of advice. It is very helpful with checklists, budget worksheets and do it yourself ideas. I especially liked the - cater your own menu information. I loved the CD because I could plan my wedding right on the computer and save it. This is a great planner for everyone who plans weddings.

This wedding planner is great! We truly believe that it helped us make our wedding a real success. What we liked best is the **about us** section and **memory pages**. This is what makes the book a family heirloom. It will give our children and theirs some background about their family genealogy. We recommend this unique planner to all engaged couples.
